Continuation of Substance of Interview including description of the general nature of what was discussed: The interview was directed at determining if there is support for the limitation "determining whether the second user is a claimant or a registered employer based on the user identifier for the second user." While the Applicant did not specifically agree that there was no support, the Examiner suggested "determining whether the second user is a claimant or a registered employer based on the login information for the second user" would have clearer support in the drawings (e.g. figure 1), page 6 paragraph 2 and page 14 item c. Determination of any possible allowable subject matter is still pending.
